EDUCATION

India Institute Of Technology Mandi

B.tech II year

Himachal , IND

Aug 2023 – Aug 2027

PROJECTS

Amazon Website Cloning

[Link to Demo](#)

- Developed a visually appealing clone of the Amazon website using HTML and CSS, replicating key features and design elements.
- Demonstrated proficiency in web development fundamentals, including layout, styling, and responsive design principles.
- This project showcases my ability to translate complex visual designs into functional, user-friendly web pages.

ProfitHub

[Link to Demo](#)

March 2023

- ProfitHub, an intelligent financial advisor website for the KrackHack **Hackathon** at IIT Mandi.
- Incorporated AI for personalized financial insights and built a specialized financial tool.
- Managed user income data and provided tools for effective financial management.

Decentralized Course Reviews

[Link to Demo](#)

25th Aug 2024

- Developed a blockchain-based platform for decentralized course reviews, utilizing **Ethereum** smart contracts to ensure transparency, security, and incentivization for students. Presented the project to a panel of judges and industry experts, demonstrating the potential for decentralized course reviews to revolutionize the e-learning industry.
- Skills that I used for this project are Blockchain development, Ethereum smart contracts, Frontend development, Solidity , Presentation and communication skills

AWARDS & INTERESTS

JEE & JEE ADVANCE

Aug. 2023 – Present

- Cracked JEE Mains and JEE Advance with a good score , and got **India Institute Of Technology** .

Interests

- I have a strong interest in coding, driven by my passion for problem-solving and creating innovative solutions.
- Also interest in learning different programming languages.
- Photography, UI/UX Design , Web Security Services

SKILLS

Skills: HTML, Web Design, CSS, JavaScript , Figma , Bootstrap , Tailwind CSS , React , Vite , Python - Pandas , Numpy , Matplotlib .
